

CRIS 2016
Cosmic Ray International Seminar
"New eyes on the Universe"
Hotel Continental – Island of Ischia (NA) - Italy
July 4th-8th, 2016

SECOND ANNOUNCEMENT

The 10th Cosmic Ray International Seminar (CRIS 2016) will be held in the Island of Ischia (NA) on July 4th-8th, 2016 and will focus fundamental topics in astroparticle physics.

CRIS 2016 is organized by the Napoli and Catania Section of the National Institute of Nuclear Physics (INFN), by the Department of Physics “E. Pancini ” of the University of Napoli and by the Department of Physics and Astronomy of the University of Catania.

The conference venue is the Hotel Continental Ischia at Ischia Porto, Naples. We plan to host all participants in the conference hotel. Sessions will start on Monday, July 4th afternoon and will end on Friday, July 8th before lunch. For all the details about the Conference, including registration, travel and accommodation info, contribution procedures, you are kindly invited to visit the Conference Web site at : <http://cris2016.na.infn.it>

The CRIS 2016 conference program will consist of plenary sessions including :

1. Gamma-Ray Astronomy
2. Indirect Measurements of High Energy Cosmic Rays
3. Cosmic Rays Direct Measurements
4. Astrophysical Neutrinos
5. Gravitational Waves
6. Tuning Models & Fundamental Interactions
7. New Detectors

Each session includes a 45 minutes overview lecture and 30 minutes highlights reports on the main experiments. A preliminary list of the invited speakers can be found on the conference web site. Contributed talks (15 minutes + 5 minutes for discussion) for each session as well as a poster session are scheduled. Participants are invited to submit their contributions and indicate a preference as oral or poster. Contributions will be published on Nuclear Particle Physics Proceedings by Elsevier.

As in the past, the CRIS 2016 Conference is addressed to scientists in the fields as well as to PhD and graduate students. We will encourage lively and informal discussions among participants.
